Buenos Aires, Argentina | Available immediately | Open to Remote or On-site (CABA)

ABOUT ME

I'm a third-year Information Technology Management student at UADE. I enjoy solving problems, working under pressure, and delivering high-quality results on time.

EDUCATION

Universidad Argentina De la Empresa (CABA, Buenos Aires)

Information technology Manager | On going since 2023 - Expected 2026

High School - Santa Teresita (Arrecifes, Buenos Aires)

Bachelor's degree in Socials | 2017 - 2022

SAP IBP Consultant

Certified by ExedConsulting | September 2023 - November 2023

SKILLS

- Languages: Python, Java, JavaScript, HTML5, CSS, SQL, AndroidStudio, Flutter
- Frontend: React.js, Vite, Bootstrap
- Databases: Microsoft SQL Server, MongoDB, Cassandra, Neo4j, InfluxDB, Redis
- Tools: Git, GitHub, Trello, Microsoft Office, Jira
- AI / GenAI Tools: ChatGPT, Gemini, Claude, Copilot, v0, Antigravity, Figma.

PROJECTS

- Ritmo (Personal AI Assistant App) — In progress; personalized daily recommendations (onboarding, profiling, notifications) with planned AI/RAG integration.
- Naturave ERP (Figma Prototype) — UI/UX design for an ERP with stock, employees, income/expenses, sales and purchases.
- PaoloMasajes.com — Responsive website for a service business (services + contact/booking flow).
- SAPAH E-commerce (Faculty Project) — E-commerce web app developed as a university team project (Git/GitHub).
- BD2 "LinkedIn-like" Backend (Faculty Project) — Backend-only social-network style project focused on data modeling and databases.
